Sivakorn Khundilokrattaya

Computer Engineering Student • Aspiring Data Scientist & ML Engineer

Bangkok, Thailand | sivakorn.khun@gmail.com | svkhun.vercel.app
GitHub: svkhun | LinkedIn: sivakorn-khundilokrattaya

EDUCATION

Srinakharinwirot University (SWU) 2024 – Present (Expected 2026)
Bachelor of Engineering in Computer Engineering Bangkok, Thailand

- Specialization: Statistical Machine Learning, Financial Risk Modeling, and Distributed Data Engineering.
- Relevant coursework: Machine Learning and Database Systems.

SCHOLARSHIP

NHK Spring (Thailand) Undergraduate Scholarship 2026–2027
30,000 THB/year merit award, conferred September 25, 2026; includes a planned two-month summer engineering internship.

TECHNICAL SKILLS & COMPETENCIES

Programming:	Python (Expert), SQL (PostgreSQL, MySQL), C, C++, Java, R, Bash scripting
Machine Learning & XAI:	LightGBM, XGBoost, Scikit-Learn, PyG (R-GCN), ONNX Runtime, SHAP, LIME, OptBinning, Pandas, NumPy
Data Eng & DevOps:	Apache Spark, Apache Airflow, Docker, FastAPI, PostgreSQL, Git, CI/CD pipelines
Languages & Ethics:	Thai (Native), English (B1+ Professional), Japanese (Elementary) • Clean OOP, PEP-8

FEATURED ENGINEERING PROJECTS

K-NEXUS – Synthetic Planning & Risk Review 2026
PyTorch Geometric (R-GCN), LightGBM, ONNX Runtime, FastAPI, React 18 • KBTG Kampus Hackathon 2026

- Team prototype combining a synthetic spending baseline, stored graph context, and ONNX recipient-risk review.
- FlowSense ML remains disabled; Gate 2 passed no horizon. No real banking or business outcome is claimed.

Shopee Smart COD Reliability & Dynamic Decisioning Engine 2026
Python, Scikit-Learn, Random Forest, FastAPI, Vanilla JS • Shopee Ultimate Case Challenge (SUCC 2026)

- Trained calibrated Random Forest pipeline (0.8629 ROC-AUC, 0.3722 PR-AUC) on 50,000 synthetic orders to predict COD delivery failures.
- Designed 4-tier checkout risk policy (Grade A 1-click COD to Grade D 30% deposit) and dynamic scorecard (+8/-20 pts feedback).

Enterprise Credit Risk Scoring & Explainable AI (XAI) 2026
Python, LightGBM, SHAP, FastAPI, Docker • Basel II/III Credit Decisioning Engine

- Constructed WoE and Information Value (IV) transformation pipelines to discretize financial attributes into monotonic risk bins.
- Integrated SHAP TreeExplainer for ECOA/FCRA Adverse Action notices; containerized FastAPI microservice with <50ms PD scoring.

Long Overdue Debtor (LOD) Classification System Dec 2025
LightGBM, XGBoost, Scikit-Learn • Aihack Thailand 2025 National Finalist

- Formulated temporal velocity ratios and credit exhaustion slopes across ~40,000 records; achieved 0.894 ROC-AUC via 5-Fold CV.

COMPETITIVE HACKATHONS & INDUSTRY CHALLENGES

KBTG Kampus Hackathon 2026 – Track 2 Lead (Data Science & Intelligence) 2026
Kasikorn Business-Technology Group (KBTG) • Status: Finalist Bangkok, Thailand

- K-NEXUS team project; hackathon finalist. Synthetic data, FlowSense ML disabled, and research findings reported with baseline comparisons.

Shopee Ultimate Case Challenge (SUCC) 2026 – Lead Data Scientist & Product Architect 2026
Shopee Thailand Operations Strategy Track • Interactive Mobile Shopping Simulator Bangkok, Thailand

- Validated 10.6× COD failure risk concentration ($z=24.42$, $p < 0.001$), modeling 3.58M THB monthly savings from 58% RTO reduction.

AIRA & AIFUL / Aihack Thailand 2025 – National Finalist Dec 2025
Machine Learning & Financial Risk Modeling Lead • Chulalongkorn Business School × ProbSpace Bangkok, Thailand

- Handled 1:12 default imbalance using SMOTE-Tomek; pitched default risk reduction vs. interest margin profitability to C-level executives.

True Innovation Launchpad & GISTDA Spatial Resilience Hackathons 2026
AI Lead (True Healthcare Frailty Prevention APIs) • Spatial Lead (GISTDA Rain-to-Flood 30m Mapping) Bangkok, Thailand

CERTIFICATIONS & STANDARDIZED ASSESSMENTS

SKILLKAMP by KBTG: Data Analyst (STAMP) Score: **97/150** (Benchmark: 90) • Digital Marketer Score: **98/150** (Benchmark: 94)
Oxford Placement Test: CEFR B1+ Professional (Score: **51/120** – Listening: 51.12, Grammar: 50.88; AUA / Oxford)
