About Me

I'm interested in Data Science, particularly in AI/ML model training and data analysis. I believe that Data Science is the key to transforming complex data into actionable insights that drive innovation. I'm committed to apply my analytical skills and passion to a Data Science role.

Technical Skills

Programming Languages

- Python (Pandas, NumPy, scikit-learn)
- RStudio
- Java
- C (C Language)

Machine Learning

- TensorFlow
- PyTorch
- Keras

Education

2021 - 2024

Triamudomsuksa pattanakarn suwannaphum school
Science - Mathematics Major

GPAX : 3.88

2024 - Present

Faculty of Engineering, Bachelor of Computer Engineering,
Srinakharinwirot University (SWU)

GPAX : 3.43

Experience

Sub-Committee Member Recreation Board Srinakharinwirot University

August 2025

- Responsible for organizing and managing university-wide recreational activities and student engagement events to promote a vibrant campus culture.

Auction Website Project

December 2025

- Collaborated in a two-person team to develop a real-time auction platform using React and Firebase, featuring a seamless bidding system and secure payment integration via the Omise API

AiHack Thailand

December 2025

- Participated in AiHack Thailand organized by AI-FUL and Chulalongkorn University. I competed in a team during the qualifying round and successfully advanced to the Final Round as a solo participant.
